Summary

Back-end developer with experience building full-stack projects such as a real-time carpooling app and a weather app using Node.js, EJS, and Redis. Collaborated in teams during hackathons and contributed to open-source projects. Seeking internship opportunities to apply my technical skills and deliver practical solutions in a professional environment.

Skills

Node.js • Redis • MongoDB • SQL • Apache Kafka • Tailwind css • TypeScript • WebSocket

Projects

UniRide - Ride Pooling Website

Jan 2025 – Feb 2025 • 1 mo

2 coworkers

Technologies: Node.js • MongoDB • Socket.IO • Tailwind css • EJS

- Developed backend APIs and WebSocket real-time communication using Node.js and Express.js.
- Facilitated students to find and share rides easily, reducing campus transport issues.
- Used MongoDB for data storage and Tailwind CSS for responsive UI.
- Collaborated with two team members to divide tasks, conduct code reviews, and ensure timely delivery of the project during a hackathon.

Weather Website Using Redis

Mar 2025 – present

Technologies: Tailwind css • JavaScript • Express.js • EJS • Redis

- Developed a real-time weather app that fetches data based on user input and GPS location.
- Integrated Redis caching to reduce repetitive external API calls and improve load speed.
- Used RapidAPI to fetch accurate and up-to-date weather information for the app.
- Designed a responsive frontend using Tailwind CSS and implemented server-side rendering with EJS.

Education

Bachelor's degree: Software Engineering

Dec 2022 – Dec 2026 • 4 yrs

Mehran University of Engineering and Technology

Jamshoro, Pakistan

Studied core and advanced topics in software engineering with hands-on projects, teamwork, and real-world applications like DSA, Web Development, Database Systems, Software Project Management, Object-Oriented Programming, Human-Computer Interaction, Communication Skills, Artificial Intelligence

Certifications & Awards

Web Development Course - NFTP

Jul 2023

20th Position & Public Voting Winner - Hack For Humanity 2025 - Dev Post

Feb 2025
