Summary

I'm a Full-stack developer who enjoys building real-world web apps that actually solve problems. I've worked on full-stack projects like a carpooling app and a weather app using Node.js, MongoDB, Redis, and frontend tools like React, Tailwind CSS, and EJS. I've also teamed up during hackathons and contributed to open-source projects. Right now, I'm looking for an internship where I can keep learning, contribute to real products, and grow as a developer.

Skills

Node.js • Redis • MongoDB • SQL • Apache Kafka • Tailwind css • React • TypeScript

Projects

UniRide - Ride Pooling Website

Jan 2025 – Feb 2025 • 1 mo

2 coworkers

Technologies: Node.js • MongoDB • Socket.IO • Tailwind css • EJS

- Developed backend APIs and WebSocket real-time communication using Node.js and Express.js.
- Facilitated students to find and share rides easily, reducing campus transport issues.
- Used MongoDB for data storage and Tailwind CSS for responsive UI.
- Collaborated with two team members to divide tasks, conduct code reviews, and ensure timely delivery of the project during a hackathon.

Video Calling Website

Jun 2025 – present

Technologies: React • WebSocket • Tailwind css • Redis • WebRTC

- Built a real-time video calling app using WebRTC for peer-to-peer audio/video communication.
- Developed signaling server with Express.js and WebSocket for managing user connections and room creation.
- Used Redis to temporarily store active room data.
- Designed a modern, responsive frontend with React and Tailwind CSS.

Education

Bachelor's degree: Software Engineering

Dec 2022 – Dec 2026 • 4 yrs

Mehran University of Engineering and Technology

Jamshoro, Pakistan

Studied core and advanced topics in software engineering with hands-on projects, teamwork, and real-world applications like DSA, Web Development, Database Systems, Software Project Management, Object-Oriented Programming, Human-Computer Interaction, Communication Skills, Artificial Intelligence

Certifications & Awards

Web Development Course - NFTP

Jul 2023

20th Position & Public Voting Winner - Hack For Humanity 2025 - Dev Post

Feb 2025

Languages

English (Professional working proficiency)

Urdu (Native or bilingual proficiency)
